PREFACE.

The Bills and Answers in Chancery for 'Bridges' Division' belonging to the period between 1613 and 1714 are contained in 640 bundles, comprising upwards of 61,020 files, the majority of which were, until lately, unnumbered. The old manuscript indexes give only the surnames of plaintiffs and defendants, and references to the bundles.

All the files have now been numbered, but they have been kept in the bundles to which they were originally allocated.

The present volume contains the whole of the letters A to C, brought together on paper from the various bundles, the references being shown in the first and second columns.

The work has been prepared by Mr. A. J. Gregory of this Department.
